

**QRSK60**

20.04.2022

**Protective shroud to mount underneath the emergency-stop**

**General Data**

Type reference	QRSK60
Description	Protective shroud
Approvals	UKCA
Max. storage temperature	-50°C ... 85°C
Max. operating temperature	-30°C ... 70°C
Material	PA66

**General data**

Mounting aperture	22.3 mm
Panel thickness	see *1)
Tightening torque (mounting nut)	see *2)
Standards	EN 60947-5-1, EN 60947-5-5, EN ISO 13850

**Note**

- protective shroud to clamp beneath the pushbutton or switch
- shock resistance acc. to IEC 60068-2-27: 50g at 11ms amplitude, semi-sinusoidal
- without holes for lock

\*1) Mounting plate thickness  
with emergency-stop QRUVF 1.0...3.0 mm

\*2) Tightening torque (fixing nut)  
with emergency-stop QRUVF tbd mm
