## Technical Data

Mounting plate for emergency-stop KRBUVOO\_XXXX

<i>Series</i>	KOMBITAST® M12
<i>Rubric</i>	Accessories Command devices

## → General Data

<i>Protection class</i>	IP00
<i>Operating temperature</i>	-40 ... 70 °C
<i>Storage temperature</i>	-40 ... 80 °C
<i>Mounting aperture</i>	Ø 30.5 mm
<i>Installation depth</i>	93.9 mm
<i>Housing color</i>	Stainless steel, glossy

## → Note

Mounting instructions:

- Install the pushbutton/switch before fixing the mounting bracket to the wall.
- Use stainless steel (V2A) fixing screws (M8), nuts and washers (not included).
- Pay attention to a safe and solid wall mounting!
- Ensure that the connecting cable is strain-relieved.

Attention:

- The mounting bracket is only suitable for KRBUVOO\_XXXX!
- The mounting bracket is open at the bottom, ensure adequate protection against accidental contact!
- Apply only protective low voltage or use pushbuttons/switches with protective insulation.
