

Locking system for SHORTRON base-plate mounting

General Data

Type reference	HRSZ
Description	Retaining ring to fix the PCB
Approvals	CE, UKCA
Operation travel	
Max. storage temperature	-40°C ... 80°C
Max. operating temperature	-25°C ... 70°C
Material	PA66

Note

Attention, only to be used for a PCB thickness of: 1.5...1.6 mm

Panel thickness: 1 - 5 mm (for 16.2 mm mounting depth with standard fixing nut M22)
5 - 8 mm (for 16.2 mm mounting depth with fixing nut M22F)
Emergency-stop (e.g. FRVK, FRVKZ) cannot be used.

Panel thickness: 1 ± 0.1 mm (for 9.2 mm mounting depth with standard fixing nut M22)
2 ± 0.1 mm (for 9.2 mm mounting depth with fixing nut M22F)
Use only with spacer ring SDR (not for the emergency-stop FVRK).

Attention:
The retaining ring/contact blocks must not be used individually.
At least 2 retaining rings/contact blocks have to be mounted onto the PCB.
