

Knob set for potentiometers, silver-coloured

General Data

Type reference	S(SW)(BV)RZ
Description	Knob set for potentiometers, Shortron series
Approvals	
Degree of protection	see remark
Max. storage temperature	see remark
Max. operating temperature	see remark
Material	PA66

Technical data

Mounting aperture	22.3 mm
Tightening torque (mounting nut)	1.5 ... 1.9 Nm

Note

Knob set for potentiometers for the range Shortron, without potentiometer
- for base-plate mounting

Colour:
Standard silver-coloured
SW black

BV knob set for potentiometer, based on dummy plug

- shaft diameter potentiometer: 6 mm (see sketch)
- shaft length: 22.5 mm (see sketch)
- thread for potentiometer: no thread

IP degree of protection:
SBVRZ IP40
SRZ IPX5
SSWBVRZ IP40
SSWRZ IPX5

Temperatures:
Storage temperature -40°C ... 80°C
Operating temperature -25°C ... 70°C
The stated temperatures can vary depending on the type of potentiometer being used.
